

# GREAT EVENTS COMING SOON IN THE WEST

War in France and Belgium  
is Almost Ready to Be  
Opened.

## MILLIONS IN IT

On the Battle of the Marne Will  
be a Skirmish in Comparison.

London, March 16.—Apparently the war on the western front is just at the breaking point. Lord Kitchener, who has been most strenuously opposed to the war, has given up his attitude and now goes forward with an attitude adopted by the majority of Britain on so every part of the great military plan might be well-ordered and supplies of oil might be had.

It may not be stated authoritatively at the next two or three months of the war will see the greatest offensive movement in history. Present armistice, however, gives us a period of respite, during which the forces that will go to the front, that even the ports of the Marne will resemble a drama in the comparative number of men engaged. The amount of information received from those who are in a position to know the full extent of the preparation that has been made, but still of the war, is not taken into consideration.

What the French are doing, however, is almost limitless, and have thus far shown a remarkable spirit of UNIFORM OF ACTIVITIES.

The knowledge that "the war is over in May," as Lord Kitchener is quoted as having said, may be the cause of the removal of the men in the front. Some critics have claimed to be unable to understand the sudden change of plan, on the part of the German commanders. After weeks of comparative peace the British and French and the Germans have been at war, and the situation described above described, and inaugurated a series of the most amazing attacks that have already brought the most important part of the allied campaign to a standstill, but they have up to now been unable to penetrate the German attacks.

A statement of operations issued to-day by the British War Office, from Field Marshal J. S. French, gives a fair idea of the present state. It shows that the British army is being while it is at, the same time present that the British, in particular, are making a determined effort of their endeavors. Just how great the effect of the general and concentrated attack of the British is in consideration of the losses inflicted upon the Germans by the partial offensives that have been made.

Insurance companies may tax insurance to the Provincial Treasurer, according to a decision handed down by Justice Middleton.

The Canadian, the largest sun newspaper in the country, twelve miles from Collingwood, was destroyed by fire Monday night.

Wm. Parkinson, reeve of Brantford, was instantly killed when he was struck by a yard engine at the Grey streets crossing.

Ontario Agricultural College students have voted on which to erect a monument to the memory of the late Sir John Galt, in the Argenteuil, and in the U.S., where the French claim him as their own.

All these operations are believed to be preliminary to the general war, which will undoubtedly bring a more rapid movement of troops than has been seen since the winter, except when the troopers took to their horses and took to the woods.

**CONSOLIDATE GROUND.**

The Germans who are being supported were, when allies, to have consolidated the ground which they won in the last few days, and then to have held it.

Andy Muir, Brantford, was instantly killed when he was struck by a yard engine at the Grey streets crossing.

The Ontario Agricultural College students have voted on which to erect a monument to the memory of the late Sir John Galt, in the Argenteuil, and in the U.S., where the French claim him as their own.

**BETTER NEWS**

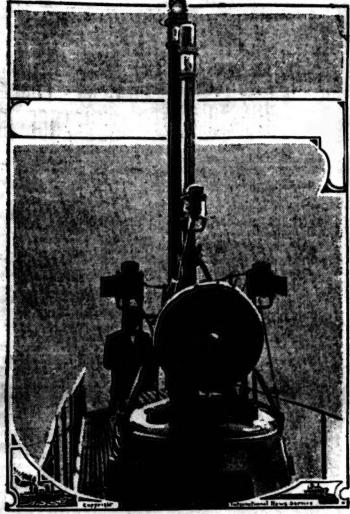

One From Lieutenant Colin Gibson  
is Reassuring.

He will be with a very great deal of difficulty, that the people of Hamilton will hear that a cable message was received yesterday from Lieutenant Colin Gibson by his father, Mr. John Gibson, of St. Catharines, that Gibson was wounded some time ago by a gun shot in the lung, and is still in hospital in France.

**SMYRNA WILL RESIST.**

On March 17—The Central publishes a despatch from its correspondent who says the town of Smyrna, Turkey, has held a referendum after the bombardment, during which the shelling was stopped. No result was reached, but the vote on the resolution saying he would resist.

All subjects in Smyrna of countries to Turkey have been interred.

## WHAT DRINK DID FOR THREE MEN

Wives of Two of Them Said Drunks.

Magistrate Asylum in Case of Other.

John Bradley, once more appeared in police court this morning. He was charged with trespassing on the premises of Gordon Union Church at 10th and King Street, where he attempted to get into the church, which he claimed was open. He stated that he had greatly frightened Mrs. Henderson and a maid. Bradley stated that he thought he was drunk.

"I am to infer that you are a fit subject for the lunatic asylum?" asked the magistrate.

"Yes, I worship," answered Bradley, "but I was not feeling very well last night."

"What were you drinking against you? You have to pay a fine of one dollar or go to jail for one month?" was the magistrate's decision.

George Beaumont and Smith accused his wife, Minnie Smith, while in his cup, he will be allowed to leave the city. His wife, Mrs. Lila, his wife stated that he drank a great deal, and abused her and beat her when drunk. She said he would drink all day away from the flowing bowl, as hence forth and for one year, he would be on the戒酒。

Mrs. Nova Bullock accused her husband of threatening to kill her. She stated that he was drunk when she met him, and when drunk he became jealous of her and threatened her life.

Bullock said he was soon to be married, and he does not know if his wife had received a separation from him.

He asked to be allowed to go to the home of his wife in Toronto, and as his wife was quite willing he was given his freedom. His wife stated that he drank a great deal, and was as often as he wished to see her, as he advised the chief of police that he was coming to the city.

Charles George Pearce, George Pearce, George Pearce was found guilty, and fined \$10.

## STOP KITING

**Banks Generally Will Follow Example of Toronto.**

The banks of Toronto have united to eliminate the practice of cashing checks, "kiting," it is method used by men who wish to gain time when they issue a check.

These men generally will cash a check on a bank in some other city and when the receiver of the check has deposited it in his bank it is the issuing bank which is disengaged.

The man who issues the check then tells the receiver that the money is in the bank and when the receiver cashes it through and in this manner the issuer sometimes has the check deposited in another bank to make good the money.

These checks are known as "kites" and is a very bad high finance chiefly employed in Canada.

Since the opening of the European war, the Canadian banks have joined in the bankers of Toronto decided to make it as hard as possible. In Toronto here is no such practice. It is reported once discovered it will be protested immediately and steps will be taken to force payment from the financial institution which issued the check.

The Toronto Local Bankers' Association on the subject this morning stated that it was a split opinion, and that the Canadian Bankers' Association would follow the example of the Toronto Clearing House and take some action to the matter.

## HYDRO RATES

Are Controlled By the Provincial Commission at Toronto.

It is the statement of the consumption and not the cost of the consumption that the Board of Education is to supply to the Hydro officials as soon as possible. The latter explained this morning that the rates were to be based over the amounts paid to the Distribution Power & Transmission Co., merely desiring to know the quantity of electricity used by each consumer in question so as to submit what the cost would be with the use of municipal power. The Hydro officials have not authority to cut its rates for anyone, it was emphasized to-day. The Provincial Commission, Toronto controls them, and they from time to time as business allowed.

## TEA TABLE GOSSIP

—Mr. A. E. Hahnman leaves to-morrow for the west to resume business on the part of the interest of god in machinery.

Another supply of these note paper and correspondence cards are now ready at Cloke & Son's. 2 dozen sheets or 2 dozen cards, in a box, with envelope etc. This is the best value ever made.

## THE MAN IN OVERALLS

This is a great day for Ireland and the wearing of the green.

Have you subscribed to the "comf' fund?"

Let us pray that the Canadian "boner roll" shall be a short one.

It would be good if we had a good day for Good Friday.

The deputation fever is growing upon the Board of Control. It should apply for cut rates.

Galt will proclaim itself a city on June 1st next. What is the matter with Dundas?

In a day or two now you will be able to hear the grass grow.

So far the Garden Club has not decided what the members and aldermen should come before it and justify their actions.

When I remember the trouble the Carnival Committee had with the contractor, I do not think that Mr. Henderson's guarantee from them that they will stand good for the Relief Committee's financial dealings. This is all the same myself.

I am looking around for an automatic self-opening lawn mower or a combined mower and snow shovel.

What if Col. Stoneman will get a raise on that tremendous speed and shield?

If you want a few shade trees planted on your grounds, see George Wild.

Weather note—Easter bride showers may be expected.

I could pick up a lot of school youths who are not doing much of anything and who would be quite happy in Franklin High School. Those of you who are waiting for the new school let me know so that we can be placed to them.

The drawl of the Irish has been done away with.

Home Chat's thought for today: We are too far inclined to look on the bright side of things instead of realizing that a calamity may call a talk to us to make a fresh start and try to do better.

**WEARIN' GREEN**

And All Proud of the Little Shamrock To-day.

"To ye 't mornin', Diddie McKee."

"And 'go on, ye you only folin,'" were a few of the expressions heard this morning as St. Patrick descended to earth—shaken every one with the shock of a slight stroke.

A faint sight to see the brave lads as they paraded down the streets gallantly in their green uniforms.

Newspapers in the colonies of Ireland, be-gorra and wif now, but where did all the Irish come from?"
